

Conservation and Project Officer

Greensand Country Landscape Partnership

35 hours a week

£25,951pa (SCP29) per annum

Introduction

We are seeking an enthusiastic, engaging and experienced Conservation and Project Officer, to help us deliver a Landscape Partnership for Greensand Country, a distinctive landscape area consisting of a sandstone ridge and associated river valleys, located principally in Central Bedfordshire (see map on page 4).

We are thrilled to have gained funding from the Heritage Lottery Fund to deliver a Landscape Partnership programme and an array of exciting projects which will help us raise awareness of the heritage value of the Greensand Country and to reverse the gradual decline in the distinct landscape character of this beautiful and loved place.

You will have an important role in the Landscape Partnership. You will inspire and enable community groups and volunteers to deliver community projects that promote, protect and enhance the Greensand Country's cultural, natural and built heritage. You will work with historic parkland owners to help them create management plans, develop funding bids and deliver projects. You will also monitor and mentor all our Partnership Project Managers too and help them evaluate their projects. There is a shortage of heritage skills in the area, so you will plan, develop and facilitate a skills development programme.

In addition to your solid Project Management and conservation experience, you will be an exceptional communicator and will inspire others, as you give talks and attend partner events as part of promoting and generating publicity for the Landscape Partnership.

The Greensand Trust

You will have lots to do, but you will be part of a welcoming and approachable team, where you will have a willingness to roll up your sleeves and ‘muck in’. You will be encouraged to use your own initiative and find creative approaches, but you will always ask for help if you need it. You will have a passion for landscape heritage and a real talent for project management. You will love mentoring others less experienced than yourself with a supportive and encouraging approach, but be willing to challenge when necessary. You will know what every partner is doing, and will keep the Programme Manager informed.

What is the Greensand Country Landscape Partnership?

‘Greensand Country’ is an island of distinctive, beautiful and loved countryside, based on a band of higher ground stretching from Leighton Buzzard to Gamlingay, rising out of the surrounding clay vales. It contains all of Bedfordshire’s remaining heathland, more than half of its woodland, and more surviving historic parkland than any other landscape in the country, often surrounding notable manor houses. This landscape character is a legacy of its underlying Greensand geology, which led to much of it being regarded as ‘marginal land’ not suitable for agriculture, as well as its management over centuries by major estates.

However, the area’s distinctiveness has been weakening over decades due to modern development and the changing economics of land use. Key habitats are becoming fragmented and unsustainable in the longer term; views both of and from the area are being lost or impaired; houses are being built of the wrong vernacular; and traditional heritage skills are dying out. Just as significantly, there is a low level of awareness locally of the significance of the area’s landscape value and heritage.

The Greensand Country Landscape Partnership has been formed by a range of partners in the area, led by the Greensand Trust and BRCC, to work with landowners and local communities to take a joined up approach to meeting the challenges in the area. Our vision is for the Greensand Country to be a living and working landscape that is cherished by present and future generations. By 2021 we will have reversed the gradual decline in the area’s landscape character, and created a strong, community led partnership and strategic framework to promote the area’s interests and secure the necessary long-term financial and community investment to sustain the area’s distinctive natural and built heritage.

More information including our Landscape Conservation Action Plan can be found at www.greensandcountry.com

JOB DESCRIPTION

Conservation and Project Officer

| | |
|-----------------------|--|
| Job Purpose | To support delivery of the Greensand Country Landscape Partnership programme, working with partner organisations, third party landowners, community groups and volunteers. |
| Accountable to | Greensand Country Landscape Partnership Programme Manager |
| Direct reports | None. |

Principal Accountabilities

1. Support and work with Project Managers and Project Partners to enable them to effectively deliver projects to time and budget, delivering agreed outputs and outcomes.
2. Assist GSCLP colleagues in monitoring and evaluating the GSCLP scheme as a whole and its individual projects, undertaking monitoring visits with Project Partners, funding partners, community groups, individuals and other staff. where required and collating evaluation material to effectively monitor and report on the progress of projects.
3. Work with community groups and volunteers. Give presentations, run training days, mentor and offer information, advice and guidance so they can be inspired and enabled to undertake the planning and delivery of community projects that promote, protect and enhance the Greensand Country cultural, natural and built heritage.
4. Ensure that all those involved in delivery comply with appropriate Health and Safety policies and procedures are followed.
5. Work with the Bedfordshire and Luton Biodiversity Recording and Monitoring Centre and the Bedfordshire Natural History Society to coordinate the monitoring and mapping of the various land-based projects under the Living Heaths/Working Woodlands and Historic Parklands programmes to create a series of digitised GIS maps providing a baseline picture and illustrating changes over time, as new habitats develop and new species are

recorded. (The Records Centre will do the mapping, the Natural History Society the data recording).

6. Plan, develop and facilitate a skills development programme.
7. Work with historic parkland owners to help them create management plans, develop funding bids and deliver projects.
8. Support the management and administration of a third party grants scheme.
9. Help to compile quarterly reports and monitoring and evaluation data for the HLF.
10. Work with other funding partners to support project deliverers.
11. Give talks and attend partner events as part of promoting the Scheme.
12. Generate publicity for the scheme, typically by use of press releases, a regular newspaper column, interviews with local press and radio, and presentations.
13. Maintain the GSCLP customer database to aid partnership communications.
14. Appoint, supervise and manage contractors, volunteers and trainees in the course of project implementation.
15. Work as part of a supportive Greensand Country Landscape Partnership team and assist and work collaboratively with other members to take forward the aims and objectives of the Scheme.

Other Responsibilities

The postholder will also be expected to:

- Attend such training as may be required.
- Attend meetings and other events as necessary.
- Keep up to date on issues through reading and research.
